Ed Welch	NCPP

2. Approval of minutes from September 2019

Graham made motion to approve; Aaron seconded; motion passed.

3. Steel cracking discussion (Ted Hopwood)

Ted was not able to make the call. Consensus was that we want to hear reports on the NEBPP (David Miller) and the MWBPP (Mike Hill) prior to the end of the year to help us form the 2020 SEBPP meeting. So, we will schedule those for November and December. Hopefully, we can get Ted in on the January call. Ed will get in touch with Ted to coordinate.

4. Future Meetings:

a. 2020: Hot Springs, Arkansas

- Planning moving along smoothly. Venue for the technical dinner is looking to update his menu, so that is not quite settled, yet. Mike anticipates no issues; just waiting on the venue to update.
- John is awaiting response to his Save-the Date e-mail of last week asking for ideas of presentations. John plans to send a reminder around October 11. We hope to have some topics/ presentations settled by the first of 2020. Input from NEBPP and MWBPP can us to plan our meeting.
- Mike plans to have several local agency folks from Arkansas at the meeting.
- For the technical meeting, Mike is thinking of having his polymer crew set up for viewing. Possibly lifts, hydro-platforms, snoopers, as well?

b. 2021: North Carolina, maybe in Raleigh.

Tim has received verbal OK, but confirmation e-mail is supposed to be forthcoming. Tim and Nick have initially thought of Raleigh as the host city, but some bridge preservation/ construction projects near Asheville might present some good opportunities for an interesting technical tour. Asheville likely has facilities to host, but deciding factor might be cost airfare into Asheville, as opposed to Raleigh.
